

OPEN WATER INSTRUCTOR COURSE

For SSI, the most important step in a Dive Professional's career is becoming a person who can train new divers – the **SSI Open Water Instructor**.

The Open Water Instructor's mission is to inspire and influence beginners to grow in their diving experiences with the goal of making them committed divers. The goal of the **Instructor Training Course (ITC)** is to increase your retail business and industry knowledge, expand your teaching skills and add professional presentation/sales experience through modern workshops and practical applications. It is an opportunity to learn how to deliver "**The Ultimate Dive Experience.**"

The candidate experience during the Instructor Training Course, a program that has proven itself over decades. It scores with quality and challenges. The program is constantly evolving, so that it always corresponds to the current needs of the industry. It ensures that SSI Dive Professionals are equipped with the right skills and knowledge required.

We offer you a SSI ITC, which is always up to date. It is especially important to us to train good and professional instructors; we will train you not only in terms of the upcoming Instructor exam, but especially for your instructor career afterwards.

The instructors employed by us and the SSI Certifier have long experience in the field of customer service, security and training, which they are happy to share with you. Thus you will have a good basic knowledge and be at an advantage over other, newly trained instructors.

Also, when searching for a suitable job according to the IE we will assist you.

Prerequisites:

- minimum age: 18 years
- logged dives: 100; min. 24 dives in the last 12 month
- certified as SSI Dive Master
- submit proof of CPR & First Aid training within the last 24 months
- valid certification
- current diving medical statement!
- own equipment

Content of the course:

- * Small personal groups
- * 10-day program
- * Air-conditioned classrooms with multimedia equipment
- * Access to the complete range of all SSI teaching materials
- * Additional theoretical and practical workshops
- * Tanks and weights during all courses
- * Complete training program directly after graduation, eg Specialty Instructor, AOWI
